

# Swiss Corrosion Science Day 2021

in conjunction with the World Corrosion Awareness Day 2021

26 April 2021  
10 am - 4 pm

at the premises of  
Metrohm Switzerland  
Zofingen

**SwissCorr**  
The Swiss Corrosion Network

 **Metrohm**  
Schweiz AG

## Swiss Corrosion Science Day 2021

The Swiss Corrosion Network ties together partners from private and public institutions with the common interest in corrosion by promoting corrosion research and education and encouraging collaboration, knowledge exchange and synergies between academic and industrial actors. A particular goal is to support and promote young scientists and corrosion engineers.

Our members bring together expertise in corrosion science and technology from a broad range of sectors including civil engineering and construction, surface and interface engineering, biomedical devices, nuclear engineering and radioactive waste storage, geothermal energy, micro component and additive manufacturing as well as cultural heritage preservation.

On the 24th April each year, Corrosion Awareness Day highlights the socio-economical challenges associated with corrosion worldwide.

**Metrohm Switzerland** and the **Swiss Corrosion Network** would like to celebrate this event for the first time this year. We aim to bring various corrosion groups in Switzerland together as a national community for presentation, knowledge exchange, interaction and networking session.

Therefore, we cordially invite all scientists and engineers from industry and academia who are interested and/or confronted with corrosion related issues in Switzerland to join us at our premises in Zofingen on the **26 April 2021**.

# Swiss Outlook: Current Trends in Corrosion Research

## Call for Abstracts

What do you deal with in your research? What questions are you looking for answers to? We want to feel the pulse of the branch and invite you to present your research project or insights to the community.

Submit your abstract until February 10, 2021, and share your knowledge with us.

The Scientific Committee will inform about the acceptance of the abstracts for either the oral presentations or posters by February 24, 2021. The definitive programme will be available from that date and will be on our website.

## Deadlines and Registration

### Important deadlines:

Submission of abstracts for oral/ poster presentations: **February 10, 2021**  
Use the following link: <http://bit.ly/met-csd21>

Decision of the Scientific Committee:  
**February 24, 2021**

Registration:  
until **April 18, 2021**.

For more information, please contact:

# Registration form

## for the Swiss Corrosion Science Day 2021

Please indicate the following data in order to register for the Swiss Corrosion Science Day 2021 and send the form by fax or mail (for digital registration see below).

Salutation:

☐ Ms

☐ Mr

☐ Dr

First name:

.....

Last name:

.....

Company:

.....

Street:

.....

CP City:

.....

E-Mail Address:

.....

Phone number:

.....

I want to submit an abstract:

☐

Send the file to:

teressa.nathan@metrohm.ch

By ticking the opposite box,  
I definitively register for the  
Swiss Corrosion Science  
Day 2021

☐

Signature:

.....
